

Sector specific value

Benefits of ABRI membership specific to each of these sectors are provided below:

Value to all members

- ✓ Consolidate Industry voice on key issues
- ✓ Access to battery end of life solutions
- ✓ Central point of contact for battery EOL information / contacts
- ✓ Hub for collaboration and networking
- ✓ Access to latest research & market knowledge
- ✓ Increased corporate visibility
- ✓ Industry development
- ✓ Access to best practice guidance for end-of-life battery management
- ✓ Guidance for safe & responsible management of batteries

High use sectors (e.g. mining & transport)	Energy storage retailers & installers	Importers & brands	Retailers
<ul style="list-style-type: none"> ▪ Facilitate Producer Responsibility ▪ Access to supply chain network ▪ Knowledge base for battery end-of-life ▪ Stewardship & circular economy 	<ul style="list-style-type: none"> ▪ Partnerships to address emerging needs ▪ Access to recycling chain partners ▪ Best practices & safety information & training ▪ Storage & transport best practices ▪ Stewardship & circular economy 	<ul style="list-style-type: none"> ▪ Producer responsibility ▪ Access to recycling chain partners ▪ Knowledge base for end-of-life ▪ Stewardship & circular economy ▪ Consulting services for compliance or take-back programs ▪ Access to recycling chain partners 	<ul style="list-style-type: none"> ▪ Access to recycling chain partners ▪ Stewardship & circular economy ▪ Storage and transport best practices & safety information ▪ Consulting services for compliance or take-back programs ▪ Corporate responsibility
Automotive, fleets, & services	Electric vehicle & e-bikes	Research / associates	State & local government
<ul style="list-style-type: none"> ▪ Partnerships to address industry pain points ▪ P801 – Packing instruction for new and used lead acid batteries ▪ Lithium battery safety ▪ Knowledge base for end-of-life 	<ul style="list-style-type: none"> ▪ Access to recycling partners ▪ Partnerships to address emerging needs ▪ Knowledge base for EOL ▪ Stewardship options ▪ Best practices & safety information & training 	<ul style="list-style-type: none"> ▪ Access to industry data ▪ Access to potential partners / clients ▪ Partnerships for applied research ▪ Consulting and collaboration services 	<ul style="list-style-type: none"> ▪ Access to industry expertise and end-of-life options ▪ Policy advice & Strategic direction ▪ Latest information on international stewardship ▪ Applied projects & best practices
Logistics & collection companies	Waste & recycling contractors	E-waste collectors	Battery recyclers
<ul style="list-style-type: none"> ▪ Extraction of batteries from traditional collections ▪ Harmonisation of regulations / insurance ▪ Storage & transport guidance ▪ Best practice & standards ▪ Regulatory updates ▪ Promotion of services 	<ul style="list-style-type: none"> ▪ Extraction of batteries from traditional collections ▪ Access to recyclers ▪ Regulatory updates ▪ Harmonisation of regulations / insurance ▪ Storage & transport guidance ▪ Promotion of services 	<ul style="list-style-type: none"> ▪ Access to recyclers ▪ Harmonisation of regulations / insurance ▪ Improved stewardship outcomes ▪ Best practices ▪ Storage & transport guidance ▪ Promotion of services 	<ul style="list-style-type: none"> ▪ Linkage to customers ▪ Harmonisation of regulations / insurance ▪ Access to best practice and guidelines ▪ Promotion of services ▪ Unified industry voice for government and stakeholders
